

Francisco Fernando Ramírez Martínez

INDUSTRIAL AND MANUFACTURING.

WORK EXPERIENCE

Quality Engineer at MSB Company (August 2021-Present)

- quality certificates
- parts release
- production scheduling
- PPAP's

Start-up of my own additive manufacturing company (August 2019 - Present)

- Development of the additive manufacturing company.
- Designer of parts for production.
- Implement continuous improvement.
- Production and inventory control.
- Production capacity.
- Obtaining the equilibrium point.
- Additive manufacturing machinery technician.
- Machinery maintenance.
- implementation of industry 4.0.

Achievements: creating my own company and obtaining knowledge to grow a business.

Anti covid fase shield. Mass production Project. (March 2020-January 2020)

- Design prototypes.
- In charge of the supply chain.
- Production and inventory control.
- Methods engineering.
- Maintenance of additive manufacturing machinery.

Achievements: I learned to produce parts in large quantities, Including continuous production and improvement of the process for great production in less time.

SUMMARY

My goal is to maximize performance in each task. I aim to grow, overcome challenges and solve problems. I look forward to finding a work environment where I can develop professionally and offer my commitment to the duties of my position and the workteam. Also contribute my knowledge, tools and best practices of Industry 4.0. Grow with the work team in a pleasant and successful environment.

Querétaro Qro. México

Date of birth: 04/28/1997

STUDIES

Universidad Autónoma de Querétaro
Industrial and Manufacturing
Engineering
(2016-2021)

DOCUMENTS

- Diplomat in **Lean Six Sigma**.
- Passport and visa.
- University insurance
- Driver's license type A (own car).

PROFESSIONAL SKILLS

- English B2 (Advance)
- Additive manufacturing processes.
(Extensive knowledge in 3D printing in FDM).
- 3D modeling
(In different programs as they are Solid Works, 3d builder, Cura, Blender,Auto CAD, etc.)
- Ability to solve problems
- Teamwork
- Initiative
- Adaptability
